Appl. No. 10/767,570 Amdt. Dated October 27, 2005 Reply to Office action of August 24, 2005

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A storage phosphor reader, comprising:

a receiving station adapted to receive a cassette containing a removable storage phosphor;

a path along which the storage phosphor is transportable in a first and second direction when removed from and returned to the cassette, the receiving station being disposed at one end of the path; and

an access area disposed at the other end of the path wherein the access area can be exposed to <u>ambient</u> light as the storage phosphor is transported along the path.

2. (Currently Amended) <u>A storage phosphor reader,</u> comprising:

a receiving station adapted to receive a cassette containing a removable storage phosphor;

a path along which the storage phosphor is transportable in a first and second direction when removed from and returned to the cassette, the receiving station being disposed at one end of the path;

an access area disposed at the other end of the path wherein the access area can be exposed to light as the storage phosphor is transported along the path; and

The storage phosphor reader according to Claim 1, further comprising a cover disposed in the access area.

(New) A storage phosphor reader, comprising:
 a receiving station adapted to receive a cassette containing a removable storage phosphor;

Appl. No. 10/767,570 Amdt. Dated October 27, 2005 Reply to Office action of August 24, 2005

a path along which the storage phosphor is transportable in a first and second direction when removed from and returned to the cassette, the receiving station being disposed at one end of the path;

an access area disposed at the other end of the path wherein the access area can be exposed to ambient light as the storage phosphor is transported along the path; and

a cover disposed in the access area.
